

HEIN HUSTINX CONSULTANT FOR DAY MEDICAL

Interregional blood transfusion service of the Swiss Red Cross
Bern, Switzerland

DAY medical SA,
Avenches, Switzerland

Hein Hustinx (origin from the Netherlands) was for more than 30 years Head of the Immunohematology Laboratory Interregional Blood Service SRC in Berne. This is also the National Reference laboratory (RBC-Serology) of Blood Transfusion SRC Switzerland (BTS).

After his "retirement" he works as "mentor" for his successor. Since 2016 he is also consultant for DAY-Medical in Avenches. He is a member of the DGTI (German Society for Transfusion Medicine and Immune Hematology), member of the SVTM (Schweizer Verein für Transfusionsmedizin) and member of the ISBT (International Society of Blood Transfusion), Working Party Rare Donors.

He still leads the immunohematology working group of the BTS, responsible for the Swiss patient's recommendations.
